

VERTECH
GROUP

Position : **Junior Project Engineer (M / F)**

Areas : **Technical Execution - Life Cycle Thinking (LCA-LCC-SLCA)**

Firm

VERTECH is a French High-Tech engineering consulting company that focuses its business on providing advanced environmental and sustainable solutions to different business sectors.

Vertech creates value by advising and supporting private and public organizations regardless of the sector they work in (e.g. energy, waste treatment, agricultural), their location (Europe, North and South America, Asia) and their size (e.g. SMEs, Large, Universities).

Vertech analyzes organizations, their processes, their products or services and then provides a feasible, cost-effective and reachable environmentally-friendly solutions. By doing this, Vertech not only integrates its highly qualified team of professionals but scans along its own partners network, creating at the same time business opportunities for third parties under a win-win scenario.
